

Multi Coil Winder
upto 12 coils with AEX and AEH control system

Six Coil Winder
with AEX mechanical and control unit

Long Axial Winder
for winding length upto 24 inch long with driven tail stock

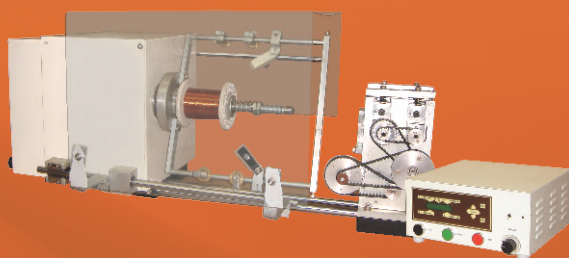

Flyer Winding Machine (Heavy)
for stator with wire upto 17 AWG and 18 poles with auto indexing and layering

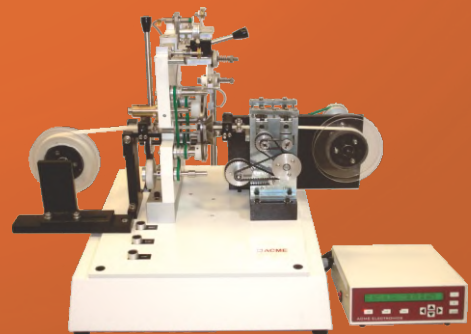

Miniature Armature Winding Machine
for AC and DC motors with auto indexing

R-Core Winder
with AEX and AEH controller to wind coils for pre-inserted cores

Spiral Winding Machine
with programmable pitch for continuous winding on fiber / wire or tube along with pay off and take-up system

Continuous Winder
on flexible strip with programmable pitch
